## MID-CENTURY MODERN SELECTION

### ANITA DINING CHAIR

The Anita Mid-Century Modern Dining Chair is a piece where lush, beauty and delicacy hide the fierceness and unbridled sensuality of one of the 50s iconic personalities: Anita Ekberg. This art deco piece has an exquisite velvet upholstery supported by long walnut wood lacquered legs finished with extremely elegant polished brass details.

### SCARLET ARMCHAIR

Scarlet is a bright and vivid reddish color that emanates passion, love and seduction. Inspired by such color, Ottiu designed the Scarlet Armchair. Upholstered in velvet, with walnut wood legs, and has brass nails for a finishing touch, its eclectic and unique back will give your living room set an entirely new character.

### MARGRET SOFA

Always recognized by her flaring beauty and sexiness, Ann-Margret was Ottiu's inspiration to design this mid-century modern sofa. Featuring a showstopping velvet upholstery over its polished brass feet, this piece is guaranteed to bring the old Hollywood glamour to your contemporary living spaces.
